

Full Time A.I. Relief Technician

Accountable To: General Manager

Prairie State/Select Sires is seeking a fulltime relief technician in Southern Illinois. The successful applicant will provide relief to area technicians who are responsible for sales and artificial insemination service to dairy and beef producers to further the reproductive efficiency and genetic development of the producer's herd.

Major Areas of Responsibility: Working with employed technician staff to:

- Provide daily technician arm service in the specified area. Organize and schedule daily the service requests with the regular stops to ensure each service gets performed in a timely and efficient manner.
- Further develop and grow the customer base by providing sales and service contacts in conjunction with the Area Director of Marketing.
- Serve as the everyday Prairie State/Select Sires presence in the area.
- Manage semen and herd management product inventories.
- Be open to assisting with other responsibilities and tasks that come about from time to time as requested by the marketing department and management.

Skills Required: Artificial insemination experience and agricultural background preferred, willingness to learn new skills, good organizational and time management skills and must be self-starting and a strong communicator.
