

IntelliGen™  
TECHNOLOGIES

# ENHANCE YOUR BIOTECH CAREER

at IntelliGen® Technologies

# Why join the IntelliGen<sup>®</sup> Technologies team?

## WHAT YOU DO WILL HELP NOURISH THE WORLD

As the global population grows, the demand for animal protein increases. We are helping meet this need by developing and delivering technology that yields more female dairy animals to produce milk to nourish the world.

## YOU WILL JOIN THE BEST AND BRIGHTEST IN THEIR FIELDS

Our team applies engineering-based methods and process engineering to implement this expertise in animal physiology. This is not only unique but brings together backgrounds that have the experience to collaborate across specializations.

## YOU WILL BE PART OF THE DNA IN A WORLD-LEADING TEAM

We are truly global with a team spanning four continents from diverse backgrounds. Collaboration between colleagues from different countries and roles is how we work every day.

## YOU WILL BE ABLE TO PIONEER YOUR CAREER PATH

Career development, learning and growth, talent and performance management are key commitments to every employee. You can count on these foundations throughout your career.

## YOU CAN INHERIT OUR PASSION FOR DOING BETTER EACH DAY

Work alongside enthusiastic colleagues who are dedicated to acting responsibly, collaborating effectively and making a difference in the world while improving efficiencies and processes.
