POSITION OPENING

Title: Laboratory Supervisor

Location: Umatilla, OR

Position Objective

AgSource Cooperative is seeking a Laboratory Supervisor to supervise laboratory and sample preparation technicians and coordinate processing of samples through the laboratory in a timely and efficient manner. The successful candidate will be responsible for following prescribed method SOPs and standard quality control protocols.

Major Areas of Responsibility

- Accountable for processing allocated daily sample volumes; following stated SOPs and meet necessary completion time frames. Responsible for monitoring, enforcing and reporting of Quality Assurance's defined quality control programs.
- Direct and supervise Lab Technicians to assure they exercise care and caution in properly analyzing and recording lab results; SOP review, continuous training, QC review, provide problem solving, and provide efficient work and shift schedules.
- Direct and supervise sample preparation staff to assure they exercise care and caution in all phases of sample preparation including lining up, drying, grinding, weighing and extractions.
- Research and validate new method SOP and continual process improvement to promote lab efficiency and accuracy
- Responsible for establishing and following a routine process of required documentation including instrumentation maintenance, MSDS files, stock reagents, standards and prepared solutions

Qualifications

- An Associate's degree in Chemistry or related field and 1-2 years of experience preferred.
- Ability to have a high attention to detail and a sense of urgency
- Have strong organizational skills and the ability to work in a team environment as well as possess effective communication skills.
- Willingness to grow and develop both personally and professionally.
