

# **PINE CREEK NUTRITION SERVICE, INC.**

502 E. Main St • Turlock, CA 95380  
Office (209) 667-4181 • Fax (209) 667-0456

Pine Creek Nutrition Service, Inc. (PCNS) is pleased to announce an opening for two summer internship positions. Applications are being accepted until March 1, 2016.

PCNS is a 30 year old nutrition consulting firm and the principle owner of DairyWorks, LLC. The primary scope of the internship is to develop and conduct an applied research project as it relates to Dairy Nutrition and Management. Traditional projects are relevant to current market conditions and Pine Creek and DairyWorks client's needs. Data are collected with the assistance of PCNS and DairyWorks consultants. The project will create an educational opportunity for the intern to develop a working understanding of daily problem solving on large herd dairy farms. The PCNS intern position will be assigned one consultant whom the individual will report to and will be provided with educational experience opportunities with consultants from both firms.

In order to apply please email a current **Resume and Cover letter to [pinecreek@pinecreeknutrition.com](mailto:pinecreek@pinecreeknutrition.com)**. In your cover letter please describe why you are interested in Dairy Nutrition/Management. Preliminary screenings will be conducted by phone. Final candidates will be invited for personal interviews prior to selection. Candidates are encouraged to provide any additional information that you believe will assist Pine Creek and DairyWorks in the selection process.

The Tentative Intern Schedule is outlined below

May – Sept (Depending on College schedule)

4 phase approach

1. Phase 1 (May/June) – Consultant Ride along and define a project
2. Phase 2 – Written Literature review for summer project (June)
  - a. Student will learn best places to find research literature and improve critical thinking regarding evaluation of research
  - b. Along with PCNS staff develop data collection schedule for June, July, August
3. Phase 3 – Data collection (June/July)
  - a. Data collection – as defined by project scope
  - b. Input data and interpret data
4. Phase 4 – Data evaluation and Write up (August/Sept)
  - a. Final write up
  - b. Evaluation

This will be a very applied and hands on internship. Both field and office work are critical to the success of the intern. Chosen individuals will be a self starter with basic cattle and computer knowledge. Other duties outside the four phase scope may apply.
